

## Test Report

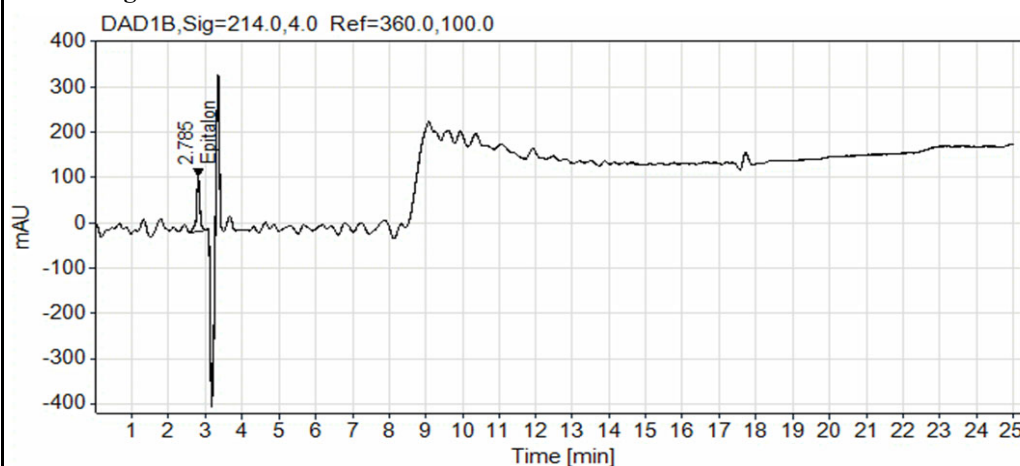

Client Name Bio-Can Pharmaceuticals  
Client Contact domenicdeliso@gmail.com

PPB Analytical Sample ID 9026\_0900 Sample Receiving Date Aug. 28, 2026  
Receiving Condition Ambient Sample Registration Date Aug. 28, 2026  
Sample Matrix<sup>#</sup> Other Test Report Date Sep. 08, 2026  
Sample Code<sup>#</sup> Epitalon 10 mg  
Sample Description<sup>#</sup> Epitalon 10 mg

Compound Epitalon  
CAS No. 307297-39-8  
UV Purity (%) 100.00%  
Method HPLC-UV

### High Performance Liquid Chromatography (HPLC) – UV Purity Test

#### Chromatogram #1

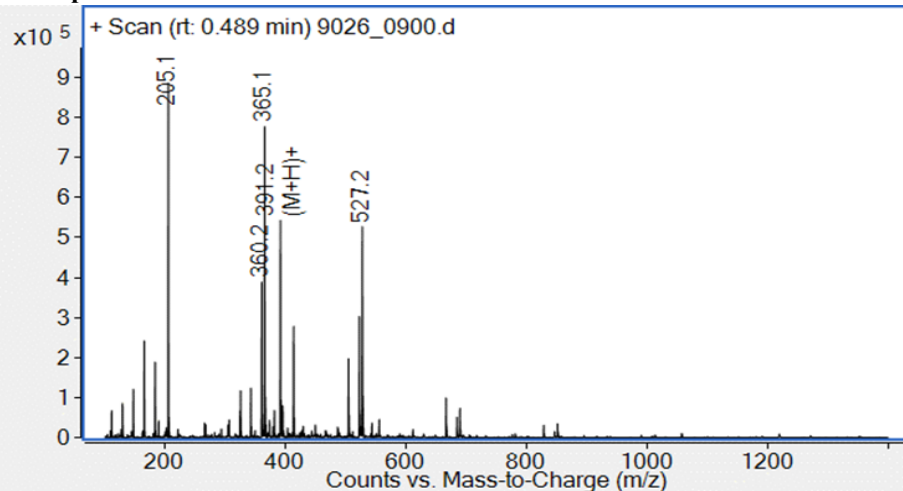

| Peak | RT (min) | UV purity (%) | Compound |
|------|----------|---------------|----------|
| 1    | 2.785    | 100           | Epitalon |

Note: Some lyophilized peptides may contain various salts and sugars to aid in solubility and act as stabilizing agents. These are generally not detected using UV and are not considered to be impurities.

## Identity testing by HPLC-MS

### Mass Spectrum #1

| Peak | Species            | $m/z$ | Calculated MW |
|------|--------------------|-------|---------------|
| 1    | (M+H) <sup>+</sup> | 391.2 | 390.2         |

Averaged Molecular Weight: 390.2 g/mol

Note: For larger molecules and peptides, it is uncommon to observe monoisotopic  $m/z$  values in full scan mode. The dominant peaks shown in the spectrum can be used to calculate the average molecular weight and then compare to the values reported by vendors and standardized databases for further confirmation.

Remark: This product is for research purpose only. Not for human/veterinary use.
